This report shows case counts of

notifiable disease for the reporting period 12/1/2012 to 12/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occurred within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2012 will be published in the DSHS HSR 8 2012 Annual Communicable Disease Report.

* Denotes data unavailable

Outbreaks of Significance NONE

This report shows case counts of notifiable disease for the reporting period

12/1/2012 to 12/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occured within the reporting period

A case is not counted if:

- investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2012 will be published in the DSHS HSR 8 2012 Annual Communicable Disease Report.

* Denotes data unavailable

Outbreaks of significance: NONE

This report shows case counts of notifiable disease for the reporting period

12/1/2012 to 12/31/2012

A case is counted if:

- it is reported to DSHS HSR 8
- signs, symptoms and laboratory results meet the Centers for Disease Control & Prevention criteria for a "probable" or "confirmed" case (Note: for tuberculosis and sexually transmitted diseases, only "confirmed" cases are counted)
- onset or diagnosis occured within the reporting period

A case is not counted if:

- · investigation or classification is pending
- onset or diagnosis occurred outside the reporting time period

Monthly reports are subject to changes in case counts and classifications. Final counts for 2012 will be published in the DSHS HSR 8 2012 Annual Communicable Disease Report.

* Denotes data unavailable

Outbreaks of significance: NONE
